

Use Bitcoin

Savings account
Amounts > USD 100

1. Create a Bitcoin wallet, backup and create a Password

Click on the blue "Bitcoin" button. Write down the 12 words you'll see on the screen on a piece of paper. NO screenshot, NO digital copy. You can recover your money with these 12 words.

Go to the wallet overview and click the 3 dots on the top right, go to Security and activate Encrypted and Password Protected.

2. Get Bitcoin address

Press the Receive button and you'll see a QR code and a line of numbers and letters. This is your bitcoin address, an invoice.

3. Receive bitcoin

Copy and send the QR code or the complete line of letters and numbers to the person who wants to send bitcoin to you.

Once paid, your wallet will notify you that the payment has been received. Payment in (on-chain) bitcoin can take some time.

4. Send bitcoin

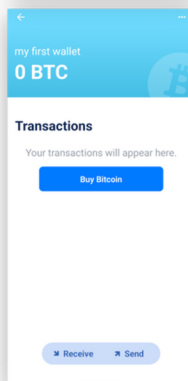

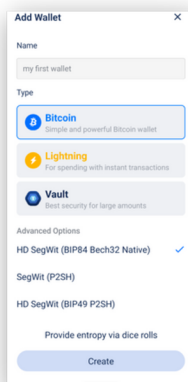

Press Send and scan the recipients QR code. Enter the amount, set the transaction fee (low fee, slow payment / high fee, faster payment), check and approve payment.

Important:

The "Lightning" wallet inside Blue is not for regular payments! Use Misty Breez instead!

FAQs:

Install your first Bitcoin wallet

1 - Download "Blue Wallet"

App Store

Google Play

2 - Open it and follow the directions on the left.

Install your first Lightning wallet

1 - Download "Misty Breez"

App Store
(Beta TestFlight)

Google Play

2 - Open it and follow the directions on the right.

Use Lightning Bitcoin

Daily spendings
Fast micropayments

1. Create a Lightning wallet and backup (+ set a security PIN)

Create a new wallet by pressing Let's Breez. Then, click on the warning icon in the upper right corner. Write down the 12 words you'll see on the screen on a piece of paper. NO screenshot. NO digital copy. You can recover your money with these 12 words.

Create a PIN code for extra security by clicking on the three-line menu in the top left corner, then go to Security & Backup.

Choose your displayed Fiat Currencies in the same three-line menu.

2. Receive via Lightning address

Press Receive and below the QR code you'll find an xyz@breez.fun address (looks like an email address), click on it to customize and set your own name. You can use this LN address to receive sats.

3. Receive via Lightning invoice

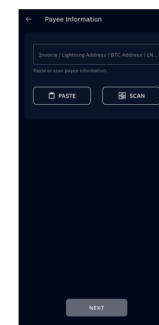

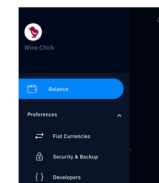

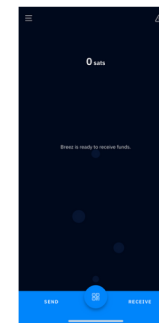

Press Receive to generate a new invoice. Tap the pen icon in the upper right corner to enter the amount, then share the invoice with the person who wants to send you satoshis.

4. Send Lightning bitcoin

Press Send and scan the recipients QR code, enter their LN address or paste the invoice you received. Go to Next and send.

Minimum amount for sending LN is 21 sats, for receiving it's 100 sats. There are some fees to be paid, which will be deducted automatically. Unlink with banks, you fully own your money with the 12 words and no one can freeze or misuse your funds.

Own Your Money

You **don't need** a bank, permission, identification, or to be wealthy to use bitcoin.

Bitcoin, can not be inflated, forged, or stopped by anyone.

Your bitcoin is harder to steal than cash.
Your payments can't be censored.
Your bitcoin can't be frozen like a bank account.
But **ONLY** if you have the backup/keys (12 English words) !
With these your bitcoin are YOURS alone!

This is called self-custody or non-custodial. Turn the page and you'll find installation guides for self-custodial wallets.

Self-custody
Your keys, your bitcoin.

If you buy bitcoin at an **exchange** or use a **custodial wallet** like Wallet of Satoshi, it's like money in the bank. It can be frozen; it can be lost; what you own and what you do with your money can be tracked. This is called custodial.

Custody
Not your keys, not your bitcoin.

Use bitcoin in **self-custody** as shown in this brochure and use it with your family, friends and business partners.

Never share your backup/keys with anyone or store them digitally or make screenshots.

No financial advice.
Do your own research.

What is Bitcoin?

Bitcoin is not a scam.

Bitcoin is like mobile money but works without a company or government behind it. It's a technology like the internet.

You can own fractions of a bitcoin called satoshi.
There are no transaction limits. Fees are low. Taxes can't be deducted automatically.

How to detect a scam

It's a scam, if someone promises profits or if you NEED to

- buy a starter package
- bring a friend or family member
- do monthly payments

Do not trade your bitcoin for other cryptos in search for fast gains!

No need to JOIN Bitcoin!

Get bitcoin

- Best option is to earn it or receive it as remittance
- Bitcoin is a **great savings tool for long-term**
- It's exchange rate goes up and down in the short-term, if you can't afford to save use bitcoin to
 - Send money abroad (low fees)
 - Spend it in your local shops
 - Exchange it peer-to-peer to USD or local currency (ask for the commission)
